

Mixer Amplifier (Phone Jack MIC Input) T-120

120W 100V

Descriptions

The basic public address mixer amplifiers have power ratings 120W.

They are featured of 3 microphone inputs, 2 aux inputs and 2 EMC inputs.

Priority muting is achieved via EMC1-2 for overriding other inputs except MIC1 on front panel.

Individual gain controls are provided for Mic 1-3 and Aux 1-2, bass and treble controls and master volume control are provided for overall tone control.

70V, 100V and low impedance 4-16ohms speaker outputs are provided. Extensive protection from short-circuit, overload and high temp.
